## Ryan Foote

### *Red and Yellow Event*

Melbourne, Australia (2010)

Ryan Foote's recent work has focused on creating temporal events as works of art; he has created pop up bars and exclusive dinner parties, including a ten-course meal that consisted only of white food. The Red and Yellow Event consisted of ten unique hors d'oeuvres — five red and five yellow — such as beetroot crisps, cherry tomatoes covered with basil infused glaze on a red cream cheese base, red Champagne flavored macaroons, golden popcorn with a yellow salt, and yellow chocolate with charred salt and gold leaf. The singular colors stripped the food of visual taste signifiers and focused instead on the taste and texture.
